discovered by: Mr. Johnson & Christian apt. 6-G address [redacted] tel. [redacted]  
Observations:

Heard popping noises coming from hallway. Upon investigating discovered fire in hallway outside apt. 6E. Both got pans of water and threw it on fire. Warned tenant of apt. 6E that there was a fire.

Officer in command A/C James Ryan Observations:

Heavy smoke condition on sixth floor in hallway. Located fire in rubbish pile against door of apt. 6E.

First company to arr. E-9 Capt. S. Nowak Observations:

Same as Assistant Chief.

Origin & Extension: Fire originated in rubbish pile in hallway against door of apt. 6E on 6th floor, fire extended to carpet on floor, to saddle under door of apt. 6-E and to exterior door and jamb wall and ceiling in hallway. .22 Caliber bullets found in rubbish pile, some of which had exploded from heat of fire.

Upon arrival at scene and finding no plausible accidental cause for fire. A/C Ryan transmitted a signal 10-73.

Upon receiving a signal 10-73 from Yonkers Fire Control, this Investigator responded to 35 Pine St. and reported to A/C James Ryan. A/C Ryan stated that the fire was of suspicious nature.

A physical scene examination of the fire revealed the following facts to this investigator. That a pile of rubbish, papers, cardboard, plastics, etc., were piled against the exterior door of apt. 6E and ignited with an open flame. That .22 caliber ammunition (approx. 15 to 20 bullets) were either thrown or placed in with rubbish. That several of the .22 caliber bullets had exploded from the heat of the fire, casings and bullet heads were found when supervising overhaul by this Investigator. This fire had gained in intensity and could have caused serious damage to anyone opening the door from inside the apartment such as burns or breathing flame or superheated gases. That the metal covered door to apt. 6-E was completely effected by heat and flame on the exterior. The carpeting in the hallway in the area of the fire had been effected and melted (acrylic type composition).

The ceiling and walls surrounding the fire on the south and west side of the halls also was affected by heat, flame and smoke. It is the determination of this investigator that this fire was a malicious incendiary act committed by a person(s) unknown at this time with the use of an open flame (ignition factor).

Detectives Urquardt and Spivey on the scene informed of this determination.

NOTE : The .22 caliber bullets and fragments of those found were taken by Egt. Pufahl #64 to the North command. These bullets were placed in a glass jar and sealed by this Investigator.

Also on the scene were Dets. Lorenzo and Oakley who were called to the scene by Detectives Spivey and Urquardt in a possible connection in another case being investigated by the Detective Division.

Mr. Craig Glassman, age 29, (tel. # [redacted]) occupant of apt. [redacted] stated that he and his father Samuel Glassman were asleep when he heard crackling and popping noises. That he got up to investigate and saw smoke coming from around edges of the door to the hallway and also saw fire through the peephole in the door which had fallen off the door due to the fire.

Date & time of arr. 8/6/77 0805 hrs.

Fire Investigator

tel. # 965-4763  
Mr. Craig Glassman said that at that time he had heard male voices in the hallway shouting to him that there was a fire outside his door and not to open it. Mr. Glassman said that he thought that the voices sounded like his neighbors who lived in apt. [redacted]. A check by this Investigator revealed that these were the voices of Mr. Postell Christian, age 34, and C. Johnson, age 32, of apt. [redacted].

Mr. C. Glassman called the Fire Department by telephone after being warned by his two neighbors. When asked by this Investigator if he knew of anyone who may be capable of doing such a thing against him, Mr. Glassman stated that he had received two threatening letters on his life, one in June and one in July. That he is Corporal with the Westchester County Sheriff's Office and that the Sheriff's Office has been conducting an investigation commanded by Investigator David Feliciano of that office.

Mr. Glassman stated that he could not reveal any information without permission from Investigator Feliciano. Dets. Spivey and Urquardt said they would contact Mr. D. Feliciano of the Sheriff's Office.

This Investigator called Investigator David Feliciano on August 8, 1977, and he confirmed that Mr. Craig Glassman had received two threatening letters, plus a third letter that Mr. C. Glassman found in his mailbox after this fire which was also a threatening letter. Mr. D. Feliciano said that he was in contact with Yonkers Detectives since the fire over the case.

When asked by this Investigator if Mr. Craig Glassman was a full time employee of the Sheriff's office, Mr. D. Feliciano said "No". Mr. Feliciano said that Mr. C. Glassman belonged to the Sheriff's auxiliary and holds a peace officers status. Mr. D. Feliciano did not know where Mr. C. Glassman was employed full time. This information was relayed to Det. Urquardt by this Investigator by telephone on 8/8/77. A check as to where Mr. C. Glassman works full time will be made by this Investigator.

Mr. S. Glassman, age 67, stated that he was Craig Glassman's father. That he was visiting his son and resides in Florida. Mr. S. Glassman said that he could add little more to what his son said except that the last time the door was opened was at 11:30 p.m. when Craig's wife, Marguerite Glassman, left the previous evening. That at that time the hallway was clear and there were no signs of rubbish against the door.

Note: Mrs. Marguerite Glassman, age 28, resides at 130 Glenwood Avenue, apt. 68, and is currently separated from her husband, Craig Glassman. Mrs. M. Glassman's telephone #965-4763. Attempts to contact Mrs. Marguerite Glassman to date have met with negative results.

Mr. Postell Christian and Mr. C. Johnson occupants of apt. 6G, both stated that they heard noises in the hallway coming from outside their door. That upon investigating they did not see anyone in the hallway but did discover a fire outside the door to apt. 6-E. That they fought the fire with pans of water from their apartment and warned the people inside apt. 6E not to open the door. Mr. C. Johnson and P. Christian had no other information to offer at this time.

Other occupants in the hallway and on the sixth floor had no information of value to offer at this time.

Note : Investigator D. Feliciano's tele. # [redacted].

Note : Mr. Craig Glassman also in his statement said that he had a complaint from his neighbor who lives directly over him about his television being too loud. A check revealed that this is apartment 7-E occupied by a Mr. David Berkowitz. Mr. Berkowitz could not be contacted by this Investigator at this time.

Samples of the hallway rug were taken, marked and sent to the State Police Lab for analysis.

Mrs. Margurite Glassman was contacted by this Investigator by telephone on 8/8/77 at 1605 hours. Mrs. Glasoman said that she received no threats and that she has been away to New Hampshire over the weekend. Mrs. Glassman also said that her husband Craig Glassman started a new job today at Montifiore Hospital in NYC and that he is a male nurse.

Investigation to continue.

### Building fire ruled as arson

By CLIFF ENNICO  
Staff Writer

Yonkers detectives are investigating a one-alarm rubbish fire that broke out Saturday morning on the sixth floor of a seven story apartment building at 35 Pine St., after firefighters discovered several .22 caliber bullets in the debris.

The fire, which started at 7:34 a.m. Saturday in a pile of rubbish that had been left in a sixth-floor hallway, was declared the work of a arsonists by Yonkers Fire Department investigators, who believe someone used a match or cigaret lighter to ignite the rubbish.

Upon searching the pile, according to fire officials, firefighters discovered between 15 and 20 revolver bullets, some of which had exploded from the heat of the fire. The bullets were turned over to Yonkers detectives who are continuing the investigation.

Six companies responded to the one-alarm blaze, which was reported under control at 7:46 a.m. According to fire officials, tenants from apartments near the rubbish helped keep the fire from spreading by throwing water on it before fire vehicles arrived at the scene.

Noone was hurt by the fire or the exploding bullets, according to firefighters, who said they saw no need to evacuate the building upon arrival.

# POLICE DEPARTMENT

YONKERS, NEW YORK

September 22, 1977

DEPARTMENTAL

**TO:** Chief of Police  
**FROM:** Commanding Officer - Internal Affairs Division  
**SUBJECT:** Visit by Mr. Joaquin Neto, **Address** and  
Newspaper Article in The Herald Statesman, Wednesday,  
September 21, 1977

On about June 1, 1977, Mr. Joaquin Neto, **Address**, known to me in the Portuguese community, appeared at the Internal Affairs Division office on a personal basis and related an incident to the undersigned involving a fire bombing of his home at **Address** on May 13, 1976. The undersigned proceeded to the Records Division and pulled out the report of said incident submitted by P.O. Taylor & P.O. Hogue. Said report #26630 indicated that some unknown person(s) threw a bottle filled with gasoline at the Netto home which was occupied. Said incident occurred at 3:42AM with no witnesses. The fire went out quickly and no injuries were reported. Investigation by P.O. Taylor and Hogue failed to reveal any evidence that could indicate who the responsible persons were. The Detective Division was notified.

The undersigned advised Mr. Netto of the investigation and the lack of information to determine the responsible persons and asked Mr. Netto if he had any suspects or was having any neighbor problems. Mr. Netto stated that he did not have any idea who might have thrown the fire bomb at his home and was puzzled as to why the incident occurred. The undersigned advised Mr. Netto to keep in touch with the undersigned if any new developments occurred. No contact was made by Mr. Netto with the undersigned till after the arrest of "Son of Sam", David Berkowitz, at which time Mr. Netto appeared at the Internal Affairs Office and informed the undersigned of the following events:

June 1976- His wife received a letter which was typewritten on the envelope and block print on the letter. Said letter talked about hell, dogs and the devil. He stated he never saw the letter because his wife destroyed the letter and did not want him to see it and get alarmed. The letter was not shown to the Police according to Mr. Netto.

July 1976

August 1976- Harassing Phone calls including one that the Police responded and searched his house for dead bodies.

December 24, 1976- His German Shepherd was shot dead in front of his house and police responded and could not find the bullet which had passed through the head of the dog. Someone saw a man jump into a red auto with a black top and proceed north on Warburton Ave. from Wicker St. after the shooting.

After describing the above events, Mr. Neto stated it was his feeling that he had been the victim of the Son of Sam. The undersigned reminded Mr. Neto that the only incident he brought to the attention of the undersigned was the fire incident which occurred on May 13, 1976 and was told to the undersigned on June 1, 1976 a month before the first killing by Son of Sam. The undersigned asked Mr. Neto why didn't he show the letter that he received to the undersigned or to the Police at the North Command and he reported "HIS WIFE HAD DESTROYED THE LETTER!" HE STATED HE DID NOT SEE THE LETTER AND THAT HIS WIFE DESCRIBED THE LETTER TO HIM".

The undersigned advised Mr. Neto that his appearance at the Internal Affairs Division was too late and the information on the letter should have been reported when it was received.

A check of the Records Division by P.O. Anthony Lacaparra revealed that the Report of the Fire Incident # 26630 is not presently in file and was pulled out with other reports related to the investigation. A copy of the report on the Dead Dog reported by Mr. Neto is attached. A further check of the name file for 1976 and the street index file failed to reveal any reports at the home of Mr. Neto, 18 Wicker St., such as the Harassment calls Mr. Neto stated he received and one in Particular checked by the Police.

It should be noted that at the time of the visit of Mr. Neto in 1976 the undersigned felt that the fire incident reported might have been connected with the Altobelli (Homicide) Homicide which occurred on March 24, 1975 and a witness, a youth (Female) by the name of Neto made an identification of a suspect (Cippola). Mr. Joaquin Neto was listed in the phone book and has a daughter about the same age as the above mentioned witness. There is no relationship with Mr. Joaquin Neto and the witness, Neto, who formerly lived on Linden St. This information was supplied to Lt. Nasca at the time but proved to be not valid. (Possible harassment of a witness).
