Monday, July 1, '96 Visit

Unable to get there since May 24 because DB had other visits pre-scheduled the last two weeks and was concerned about too many visits and too much time away from job. Today, cloudy in NY area, cleared by the time the Catskills were reached. Warm but comfortable. Arrived at 10:40, DB down at 11:20, was working and took shower before coming down. Strange at first re: misinformation on MT's radio show comments on Zodiac. Someone told him MT also said DB was telling him things re: SOS. MT said his sources are crap, only SOS and DB saying things referred to Inside Edition interview of late '93. DB said, "they are my eyes and ears." MT said: "Then they should see a doctor and get their ears unplugged." His mood lifted immediately and he was back to himself.

At one point MT said, "I promised your father in '93 I'd do everything I could to help get you out at some point. That's what he wanted." Also, psychologically speaking, said investigation gaining own momentum because of John Paul, Rothstein/Ace and Mickey Rose, and that he better get on board or he'll look like a phony hypocrite and will never get out. He said he'd been called a fool before, but MT said, "Not like this." MT believes DB needs to feel he's just going with the flow and not the initiator.

Told him unofficially the feeling re: his time before release if he cooperated was range of 7-10, with seven low and ten high, and that it may compromise at 8 plus. Told him (Marty) said let him out as soon as investigation/trials end (two-three years). Told him it was unofficial and that no deal or formal approach could be made without his concurrence, so it's all unofficial now. He was non-chalant about this and said, "What do you want me to do, dance around the room?" MT said, "Not now, but maybe in a couple of years you will. You thought you'd never have a chance to see daylight from outside this place, now you've got the chance."

He later said "maybe" to meeting with Rip, informal, no questions, just a get-acquainted for an hour or so. At one point when MT said, "just a few gaps to fill in," he joked, "what about the two big gaps in your head?" Also, re: Process, he said, "they're all consolidated now. They don't need to have people get those awful jobs at animal shelters to get dogs for them."

Investigative notes:

1. Said he, Michael and Sperrazza were at Lauria scene. (Last time he said "almost certain" that Silberstein's car was used, too. But was Norman himself there? To ascertain.)
2. Said Donna Lauria was followed all night---going from home, to Peachtree and back.
3. Was vague on why they wanted Donna killed, but again acknowledged Vinny Minutolo was in the picture. Of course, he'd
