Analysis of developments since May '96 (NYC investigation only)
The following is based on a review of notes:

Maksim and Molena, and Judy, were talked to around May 20-May 23. We know the outcome of poly tests and so forth. Nothing has happened regarding any of these three since late May.

In early June, a trip to California was made to see Dean Kuipers and obtain the tapes of his interviews with Jesse.

Jesse was interviewed in person several times, both at MCC and later in Westchester after his transfer there on about July 19.

"Adam" (the N.O. guy) was searched for. His TN was found by the Carlsbad, NM cops and his location today was confirmed by Montreal authorities.

Calls were made to N.O. cops, and the priest Jesse was sent to kill has been located (~~but not~~ interviewed as of 9/11).

Utah authorities were contacted and sent a box of material to NYC, which arrived on Monday, Sept. 9.

A written presentation, augmented with photos, was prepared about this entire matter, and there have been presentations on this case to the inspector, the chief of detectives, the Queens D.A. and aides, and one is slated for Commissioner Safir (perhaps today). In addition, another meeting was held July 31 in NYC which was attended by NYPD people, Elvis, MT, and Yonkers PD.

DM and KM, along with MT, met DB on July 29 at Sullivan CF *and*

July Sept + 20
Outside of the above, nothing else has occurred on the NYC aspect of this investigation (Sisman/SOS/Process) since about May 23. While presentations, etc. were done---and these are important---the investigation itself has barely moved forward at all from the NYC aspect.
