

Feb. 9, 1981

Tom:

Here's what I know about this "third man":

His first name is allegedly "Joquin", known as Jackie. In the late 70s, and probably still, he was a prominent scofflaw in NYC. Accumulated tickets in Brooklyn and around Lexington Ave. and 25th St. in Manhattan.

He has a bad conduct discharge from the military.

He has an arrest record in NYC, but was not convicted. The arrest likely occurred in Brooklyn, and it would have been in the 1978 or late 1977 time period. The charge had something to do with unlawful imprisonment of a girl, but Jackie was acquitted when it was demonstrated that the girl was a local character of dubious reputation.

He is mechanically inclined, although he doesn't work as a mechanic. His family is from the Bronx, and still lives there. He has several brothers and sisters. His brother, at the least, knows of his involvement in this matter.

His last name may sound Spanish or Portuguese.

It would be of great significance to learn Jackie's full name.

On another matter, also significant regarding Wheat Carr and her prior knowledge of Berk, we should learn the start and stop dates of Berk's employment at IBI Security, and also learn from police records what time frame he drove a taxi.

As I mentioned to you, Wheat appears to have too much prior knowledge of Berk's employment record and physical description--- which she had perfectly, all before the arrest.

By the way, according to Joquin/Jackie, compromising photos exist (allegedly in the Carr home) showing DB in unnatural acts with JC and others. He also says vans were rented twice to remove items from 35 Pine. Jackie is described as being tall, with broad shoulders, narrow hips, muscular legs---a build like a football player. He has (had) a modified afro haircut and a dark "mulatto-type" complexion and facial features.
