

ANDREW DUPAY, JR.

---

Andrew was a mailman who lived a half-block from DB and the Carrs. He committed suicide in Sept. 77, about a month after DB's arrest. He used a gun. Happened in his home on Lincoln Terrace.

According to the letter I got, Andrew killed himself after a meeting at Pelham Bay Park at which he was threatened about the SOS case.

Andrew, the letter-writer says, knew Berk and the Carrs.

A phone call was placed to Andrew's wife recently. She was just fine in the conversatøon until a question was asked. The question? Was your husband threatened? She then fell apart.

Her father came on the line and said, "Why are you dragging us into this thing now? We don't want to get involved in it."

Andrew, it seems, not only lived near our friends, he was also the mailman for 35 Pine.

His wife's actions when that question was put to her were a confirmation. She just suddenly collapsed and started crying on that question. She'd been fine before that.

We've also been told that another mailman, named Foley, also committed suicide around this time. We are trying to nail it down.

Letter writer also implicated one other mailman---Donald Savage, who lived in California 1974-1975. Savage's brother, the writer says, worked in "various animal shelters in 1976-1977 time period."

Savages father had worked as a "lackey" in West. Sheriff's Dept., says writer. Savage was also ## an SOS suspect, says writer.

An anonymous letter, apparently from Yonkers, said that in *About* 1975 the writer had a conversation with the local mailman, whose name was "Ray." Ray said, "A mailman knows more than anybody else about the people on his route. Somethings he learns he shouldn't know. Sometimes, he learns more than he should." Writer said Ray related this story in a sinister, *fearful* fashion, that he wasn't joking.

A couple of months later, Ray was dead, a suicide in his garage. At least, according to the writer, an apparent suicide.

A Yonkers cop lived ~~on~~ Phillipse Terrace (near Trevor Park and Warburton) ~~until~~ until 1979 when he moved. A van, or camper, was at the cop's house frequently. Its plate was MAGIC-12.

Another small green car in the area was: 79-VLL.

Question: is it possible that Ray and Andrew Dupay are the same person? Is Ray the other suicide ~~from~~ from the post office whose last name was ~~supposedly~~ supposedly "Foley"?

Tom:

I received another anonymous letter yesterday. It appears to relate to the Andrew Dupay, Donald (yellow VW) Savage/mailmen letter, but is not from the same source. However, we apparently have another dead mailman on our hands.

This letter states: Several years ago, the writer had a disturbing conversation with the local mailman (near Warburton, Carrs, etc.) who said, in a worried, apprehensive way: "A mailman learns more than anybody else about the people on his route---sometimes too much. Sometimes he gets to know more than he should, ~~and~~ more than he's supposed to know. Things he doesn't want to know."

Writer says mailman was very nervous and worried in this conversation, and would not amplify on what he had learned. The mailman committed "apparent" suicide in his garage two months later. Writer says mailman's name was "Ray".

Writer also reports that a Yonkers cop lived on this route (Phillipse Place) in those days and remained there until moving in 1979. The writer provided two license plate numbers of cars seen near the address on numerous occasions. The numbers are: 79-VLL, and MAGIC-12.

79-VLL as of yet has not been checked. But MAGIC-12 is listed to an Alfred Chiaverini, 49 Courten Place, -Yonkers. However, phone book also lists an Alfred Chiaverini at 3 Phillipse Place.

In any event, Chiaverini is a Yonkers cop, I have learned.

The writer believes there may be a tie-in between the Phillipse Place cop, MAGIC-12 (Chiaverini) Berkowitz and the mailman's death.

This whole story rings a familiar bell with the death of the allegedly threatened mailman, Andrew Dupay. Could "Ray" and Dupay be one and the same?

Or do we have still another mailman apparently killing himself because of something he saw or heard delivering mail in that neighborhood. (Dupay lived one block from Berk and Carr and also delivered the mail to 35 Pine.) Writer says Dupay knew the Carrs.

Add to this the information I received about yet another suicide mailman named "Foley".

If you will recall, Donald Savage, also mentioned in the Dupay letter, was also a mailman in Yonkers. He had a yellow VW and was turned in as an SOS ~~and~~ suspect after the Mosko. murder. He had also been allegedly suspended for spraying mace on dogs, and had lived in California in 1974-1975 (Perry?). Savage, other writer says, also had a brother who "worked in various animal shelters in 1976-1977" and his late father was a "lackey" for Westchester Sheriff's Dept. Nuff said?

P.S. - You have a copy of  
the Dupay letter. Dupay  
died 9/20/77 -- a month after D.B. arrest. We talked  
to his wife, who fell to pieces on: "WAS YOUR HUSBAND THREATENED?"

Herb: The ORIGINAL  
Letter, About DAPPY/Savage.

Dear Mr. Terry,

I don't write anonymous letters as a habit, but this one is my first attempt at such, and has been forthcoming for well over a year, since the son of Sam Case was reopmed by you and Mr. Nittegar, so very bravely. I have been tremoundously interested in this entire matter for a long time and had decided certain things long before you published them. I was on the very same track only, without your inside information that had been so cleverly hushed-up.

I would have contacted the Loukers Police with the suspicious information I have but I think you know as well as I, it would have been another mistake, considering the force employs two relatives of the late Carr brothers, their sister wheat and brother-in-law John Mc Case. However here is what I have to say:

Donald Savage, who now resides in the Mahopac area and formerly lived in the Glenwood- warburton avenues area for several years is one was a postal employee ( coincidence?) who had a psychiatric background since childhood. He lived in California for a time and in 1974-75 had a yellow V.L.V. registered in California. when he got rid of it and where it was registered in 1977, I cannot tell. when the son of Sam case was still "unsolved" and the mention ( briefly) of a yellow V.L.V. and the description of the driver was mentioned, a Mr. Cheshire of Loukers

INTIMATE  
Knowledge  
True.

promptly called someone from the police,  
 (possibly a friend) who investigated  
 the car after who had been called. This  
 is Mr. Savage. *She had been dating* this  
 fellow for several months, and there  
 were indications that she was in danger.  
*Aside from beatings, threats and harass-*  
*ment, this man can be*  
 described as a jealous, violent, and un-  
 educated man. One time when the witness  
 "blow out his brains". Obviously, her  
 father made a connection between the  
 personality, behaviour and possi-  
 bility of his being "son of Sam", how-  
 ever it was dismissed at the time.  
 Now we learn from your latest reporting  
 that not only the v.w. fits the descri-  
 ption, but also the physical looks  
 were his, at the time. And when was  
 he looks like you? Over two years have  
 passed since the Moskowitz murder, and  
 since then anyone could alter his phys-  
 ical appearance and gotten rid of his car.  
 As a matter of fact, he now drives a  
 Rabbit.

There are many other things I  
 could mention to you, but I'm afraid  
 you might prematurely conclude that  
 this letter is the work of a crank or  
 someone with an axe to grind. On the  
 contrary, I have never met this man.

All I can suggest to you is that you do  
 a check of the California motor vehicle  
 registration for the year 1977 and once  
 and for all see if the digits mentioned  
 by the witness in Brooklyn are not

part of that license-plate.

To further add to the list of circumstantial evidence which has prompted this letter, Mr. Savage had been suspended by the Post Office for a time, for indiscriminately using mace spray against dogs on his route. He is the owner (or his mother, who lives in the same house with him and his bride of a few years) of two German Shepherd dogs. His deceased father was a frustrated law officer and was involved in the Sheriff's Office as lackey of some sort (Glassman's letters etc.) An alcoholic brother was employed in various animal shelters during the 1976-77 time in question. This family lived in very close proximity to the Carr's and of course to Berkowitz for several years. I don't know if they were acquainted, but the mailman, Andrew (I forget his surname) who committed suicide a few years ago knew them and this was never brought out, either. He was a young family man, living in his own home off Glenwood Ave near Berkowitz. After a meeting with an unnamed man in the Pelham Bay Park area of the Bronx, he told his wife that "they were threatening him and were going to get his family"; shortly after she found him dead in their basement of a bullet wound. Do you think that it is unrealistic to connect this suicide with the "Sam" case, just

900D. UNSURE  
of Savage / Carr's  
but same of Dupuy /  
CARRS.

Also  
I don't think  
knowlege  
here

because he lived adjacent to the now-famous aqueduct, that he too was a mailman, had been lured in and also knew some of these people and lived within walking distance of all of them.

There is the coroner's report on the cause of death of Michael Carr, or was that rushed-up too. The Church of Scientology, of which he was a very active employee sure has long arms. and speaking of coroners, who does the authorities in riot think they're fooling about losing fingerprints of a corpse? Everyone knows that the morgue automatically takes prints of anyone brought in, so therefore there must be another set of the body supposedly that of John Carr, the "apparent suicide" who rose up after death and laid the rifle across his own dead legs! really! To me it looks like a case of covering-up, from beginning to end of this whole thing. why was everyone so relieved to pin the whole thing on David Berkowitz, only on his admission. also the Daily News of New York whose columnist Breslin was so intimately involved in the case has never run any of your releases or even speculated on the re-open story. strange for the news and even stranger for Breslin. who is keeping them quiet, and why?

more intimate knowledge we never provide

As your editor pointed out several months ago, we have seen only the tip of the iceberg. He wrote the column to spread the message that if he were to be harmed, it would be in vain, because others knew the inside details. He indicated that it was a national concern and possibly the most important since the founding of the country. That is an earth-shattering remark. Since Kinot, N.D. is an important arm of the S.F.C. and John Carr was engaged there as an expert on the Phantom interceptors, it smells like subversion or a plot of some sort. As you probably know the Scientology movement in California is very involved in N.A.S.A. and many related things, so that could also tie in. I really never bought the devil-worship thing as anything significant.

← more intimate knowledge

In my own small way, I would like to encourage you and Mr. Nittager to continue the job you have undertaken. You deserve a great deal of praise, which I'm sure will come to you, eventually. In the meantime, if any of the information I have given is of help, I presume you will use it discreetly and not accredit it to an "anonymous letter". I will be watching for more of your reporting and if there is anything that I can contribute in the future to you, rest assured I will write again.
