

Phil Falcon

Simply put, Falcon confirmed everything about John Carr and the occult.

He called John a satanist, a witch, and said Carr was always trying to conjure up demons to do in people he felt had done him wrong.

He said Carr kept a list of the demons of hell on a piece of loose leaf paper.

He said Carr and others in Minot were killing animals, drinking their blood with their magic circles and pentagrams drawn on the floor, etc.

He said he witnessed this first hand, including the urine drinking.

He said John belonged to a "larger" cult in Yonkers that met near Sam's place. He said he heard John talking about one place in particular...that had something to do with a garage near the Yonkers home.

He said he had often heard John talk about his friend "Steve" from New York.

He said (confirmed) the Christiansen/Taylor story about the friend of John's from New York who met in the office at the Falcon's nest. He then said he couldn't remember if this was Steve, but described Trachtman to a "T."

He said this guy and John dealt drugs together in NY.

Falcon left Minot in March, 1977---so all that he described about the cult, etc. took place before Berk's arrest---well before

# THE FALCON'S NEST COFFEE HOUSE

HWY 83 N.  
MINOT, N. DAK.
