

DECEASED

VIRGINIA VOSKERICHIAN

It seems apparent that the PD tripped itself up in this case. The establishment of "negative proof" here, while it will not "solve" the entire case, will provide the district attorney's office with added solid ground to stand on re: an SOS conspiracy.

If Freund was hit, it is my opinion that Voskerichian may have been deliberately chosen, as well. Some reasons for this belief are:

1. The shooting occurred in the same location as the Freund shooting, drawing a strong connection between the two to police.
2. The shooting broke the late-night pattern. Also, only one other shooting occurred on a weekday (Lauria), and *Source* now states she, too, was "hit" and was a cult member.
3. Berk confessed to being in the neighborhood for 90 minutes before the shooting. Why? Certainly other potential "random" victims passed by before Virginia.
4. If they were waiting for her, they knew her schedule. Perhaps it came from her "boyfriend"---a Russian teacher at Columbia named Vladimir Lunis, who saw her that day. He may be interesting because of the Michael Carr-Russian angle. Was Virginia 60 minutes late that night? We don't know.
5. Wheat Carr, scheduled for a 3-11 p.m. shift that day, left around 4, claiming a death in the family. We don't know in fact if anyone in her family died that day.
6. We know very little (nothing) about Virginia's brother and sister.

CRIME SCENE

Various contradictions surround the crime scene, as well as a number of perhaps crucial unanswered questions:

1. The ski cap. Why was one worn? Berk confessed it was "cold" that night. Wrong. It was 50 degrees. A cap was recovered in Berk's car. Did it have a stripe? Witness Barlow said killer's cap had a stripe. (Or man he took to be killer).
2. With warm weather, it is possible ski cap was worn to conceal something---like long hair, possibly a woman's. Witness Barlow's description of "ski cap" as being a chubby teenager 16-18, would seem to suggest "soft, youngish features", like a woman's.
3. Voskerichian was 5'3", 5'5" in boots. Berk is 5'10" or 5'11". Yet angle of shot was slightly upward. Virginia fell forward, suggesting she was not leaning backwards on her heels to escape the shot. The upward angle of the shot may suggest a killer several inches shorter than Berkowitz.

Disposition:**SUMMARY OF FACTS**

On March 8, 1977 the deceased, a language student at Columbia University was returning from class, walking along Dartmouth Street on her way home to 69-11 Exeter Street, Forest Hills at 7:30 P.M. When she was in front of 2 Dartmouth Street she was shot once in the face with a large calibre weapon. The deceased apparently used her books to defend herself since there were powder burns and a bullet hole on a calendar she had in one of her books. She was declared dead at the scene.

One witness walking on Dartmouth Street saw a male, white between 16-18 years of age, 5'8", chubby, running on Dartmouth Street tugging at his hat with both hands muttering "Oh Jesus, Oh Jesus". No other witnesses at this time. We will be notified immediately as soon as the calibre of the weapon is determined.

Subject: INTERVIEW OF JIMMY CUNIFF M W 20 YRS.

1. On this date, along with Det. Tolan 15 H/Z, I interviewed the above named person, at his residence, 172 Burns St. 1st Fl. Tel. # B08-1444. His dob is 1/8/57, and he lives at this location with his mother. He states that he knew the deceased for about one (1) year. He first met her in Ronnie's Boutique, clothing store, where he worked as a clerk. He went out with her socially, about 10 times. They usually went out to places for drinks or to his house. The last time he was out with her was on New Years Eve. They went to a place called "Sneaky Pete's" on Yellowstone Blvd. He took her home about 12:30 AM that night because she had a date with her Russian teacher, from school. He does not know the name of the teacher, he never saw him.

2. He states that she was a good student who devoted most of her time to school work. She was an accomplished linguist who spoke seven languages fluently. As far as he knew, she had no other friends in the area

3. About a week and a half before she died, he met Virginia as she was coming out of the subway at Continental Ave. & Queens Blvd. He asked if he could talk to her. They went into a luncheonette at that location and sat in a booth and talked over a cup of coffee. At this time, his current girl-friend, Julia Nobiletti of 18 Shorthill Rd., Forrest Hills, came into the luncheonette, wanting to know why he didn't meet her. Virginia, apparently embarrassed, got up and left. This was the last time he saw her alive.
